EDUCATION

Bachelor of Engineering in Automatic Control and Robotics **2017 - 2021**

Poznan University of Technology

My studies included electronics, C/C++ and MATLAB programming, circuit design, and system modeling, giving me technical and analytical skills for engineering automated systems

PROFESSIONAL EXPERIENCE

Volunteer at FutureConf **2024 - now**

[Future Conf](#) Kraków

I am responsible for creating promotional content, including ads, memes, social media posts, and short films to increase event visibility and engagement. I also develop creative media around key topics such as web development, quantum computing, and AI.

E-commerce and Development Strategy Specialist / Co-founder **2022 - now**

[Dotigo](#) Kraków

As a startup co-founder, I integrate our inventory system (BaseLinker) with Allegro and Erli, create product listings, provide customer support, and automate tasks with Python to streamline operations.

Senior Information Technology Analyst **2021 - 2022**

[HCL Tech](#) Kraków

At HCL, I was a Senior IT Analyst, providing helpdesk support for a major sports retailer, handling equipment setup, software management, and POS troubleshooting in retail stores.

Student Internship - Calibration **2020**

[Airoptic Sp. z o.o.](#) Poznań

Selected for a competitive internship, I calibrated high-performance laser gas analyzers and produced technical documentation to uphold quality standards.

COURSES

Mastering Next.js 13 with TypeScript **21/08/2024**

The Complete React Testing Course **18/07/2024**

Mastering JavaScript Unit Testing **30/06/2024**
